1. The "State Optical Works" (Panstwowa Wytwornia Optyczna) at Jelenia Gora (Hirschberg) (G68), in Lower Silesia, is Poland's chief source for high-grade optical lenses and laboratory glass. The factory employs about 400 workers, and put a fourth furnace into operation at the end of June, 1947. Current production includes:

Heat resisting glass,  
Chemical resisting glass,  
Pressure resisting glass,  
Photographic lenses,  
Optical lenses,  
Magnifying glass,  
Prismatic lenses,  
Vacuum apparatus,  
Parabolic and elliptical reflectors,  
Glass levels,  
Water gauge glass,  
Amoules,  
Thermometer tubes.

(4 July 1947)

2. The "Lower Silesia Union of Paper Industries" (Dolno Slaskie Zjednoczenie Przemyslu Papierniczego), formed in Jelenia Gora in August 1947, has been reorganized as the "Jelenia Gora Paper Mills" (Jeleniogorskie Zaklady Papiernicze). The new organization controls the eighteen mills in the following districts: Jelenia Gora; Luban (Lauban) (B20); Lwowek (Lwenberg) (B40); Sroda (Neumarkt) (G12); Zgorzelec (Görlitz) (B00) and Kamienio Gora (Landeshut) (G87). The Three-Year Plan calls for the establishment of two more paper mills during 1947 and two more in 1948. During 1947 the "Jelenia Gora Paper Mills" obtained credits from State funds amounting to 32,800,000 zloty. (July 1947)
